

### **SPECIAL UPDATE NEWSLETTER**

So many of you have asked about the turmoil in Honduras and the status of Open Eyes Ministries. Today 7/3/09, Arlene and I are in Costa Rica and are in constant contact with our leaders in Honduras although Nicaraguan phone lines to Honduras are cut off, we were able to reach them by our US phone and now from the phone in Costa Rica.

Because of the ouster of the leftist leaning President Zelaya of Honduras, who defiled the constitution and the supreme court of that country, Honduras has been crippled by outside forces including the USA. The borders are closed so food supplies are dwindling, gasoline and diesel are being rationed and many providers of the same are closing.

There are many peaceful demonstrations and some not so peaceful in the streets; some for and some against the removal of the President and on Sunday there are large demonstrations being organized for every city in Honduras in support of removal of the President.

Because of the present curfew from 10 p.m. to 6 a.m. very little activity is being done by OEM and without a quick solution to the problem most if not all of our scheduled teams will have to cancel.

We are going to return to Honduras as soon as the borders are open and as soon as it is deemed safe to travel and the military and police presence in the streets has backed off.

We deeply need your prayers for the country of Honduras and for the safety of all. Please pray for Pamela, Fany, Jhovany, Michelle, Pastor Mario and family and Elmer and his family.

**God we wait on you to calm the waters.**

God Bless,  
Terry and Arlene
